

## PE Funding

The government is spending over £450 million on improving physical education (PE) and sport in primary schools over the 3 academic years 2013 to 2016. This extra funding is allocated directly to primary schools.

Schools are allocated a sum of money (called the Primary PE and Sport Funding) to support all children and improve the quantity, quality and breadth of PE and sport provision.

The aim of this initiative is to enable all pupils develop healthy lifestyles and reach the performance levels that they are capable of.

Schools can choose how they use the funding, for example to:

- hire specialist PE teachers or qualified sports coaches to improve the practice of teachers within the schools.
- support and involve the least active children by running after-school sports clubs and holiday clubs, e.g. the Change4Life clubs
- provide resources and training courses in PE and sport for teachers
- run sport competitions or increase pupils' participation in the School Games
- run sports activities with other schools
